- Fun!!

Summary

- Outdoor
- From 30 - 60 minutes
- Easy
- 8 – 16 people
- All equipment, instruction and insurance included.

Highlights

This activity was designed for a senior leadership team within Lloyds Bank. We designed a stretching two-day activity to test the team in a challenging and motivational environment. Things started off ok but then built into a really tough experience for the team. Each decision they made had implications for how they progressed over the two days. We included both physical and mental tasks and ensured sleep was earned. Feedback was fantastic from all those who attended but especially the manager who had booked the event.

Considerations

This is ideally suited to smaller teams with specific aims. The programme is very flexible and is designed around your exact requirements and outcomes. We can use any location - although remote areas are best. We ensure adversity is tempered with success to ensure teams leave motivated and with a deeper understanding of their issues and challenges.
