

# LEGO LAND

*Fantastic events that engage, motivate, challenge and energise your teams*

## Overview

Delegates are presented with a set of lego from which they have to complete a variety of 'builds' to meet the needs of the day. The surprise is that it's either normal sized Lego or extra large pieces - all adding to the fun.

## Benefits

- Creativity and fun
- Planning and communication
- Teamwork and cooperation
- Leadership
- Time and resource management
- Related back to work concepts
- Fun!

## Summary

- Indoor or outdoor
- Minimum 45-180 minutes
- Medium to challenging
- 8-120 people

## Highlights

Lego Land is another popular activity – the blocks can be the usual size or giant versions from which to build bridges, archways or perhaps even your company logo. We also run a sneaky Chinese whisper version which is tough but gets teams competing against each other.

## Considerations

Clients use this activity as part of a range of other tasks to fill a few hours or half a day. We can complicate things further by including budgeting and resource management to work on team strengths - this takes the activity to a half or full day programme and can link to the themes of your day.
