

ROLLER BALL

Fantastic events that engage, motivate, challenge and energise your teams

Overview

Teams build roller tubes with canes and guttering to race against the clock (and other teams) to see who can deliver against the brief. Many designs later a winner will be revealed.

Benefits

- Combine with other activities to make a half or full day of it
- Teamwork
- Resource and time management
- Creativity and testing
- Competition
- Fun!!

Summary

- Outdoor
- From one to two hours
- Easy to medium
- 8 – 80 people
- All equipment, instruction and insurance included.

Highlights

This is another of our creative activities that can be used as a one-off task to break up your meeting or conference, or it can be combined with other challenges to make a half or full-day. Teams construct a pathway of tubing in which runs a gold ball - the winning team will have the slowest ball - sounds easy but this is really quite challenging - brings out the best in your teams.

Considerations

This can be played indoors but is more suited to a grassy area - hotel gardens are fine. It all sounds easy but as the competitive spirit of the teams comes to the forefront, the tension builds. We find attendees get very creative with their construction techniques and interpretation of the rules - all to beat the other teams and win the day. We're always on-hand to see fair play and adjudicate.
